Notice No. 05-7

Date: April 12, 2005

---

## Dam Warning Buoys Allegheny, Monongahela, and Ohio Rivers

1. **TO ALL WHOM IT MAY CONCERN:** Notice is given that effective the week of 2 May 2005, **some** of the "KEEP OUT - DAM" buoys will be placed above and below the navigation dams on the Allegheny, Monongahela, and Ohio Rivers in the Pittsburgh District. Please note the full complement of buoys will not be in place until the week of 16 May 2005, after the threat of spring high water is past.

2. The river area between the dam and the warning buoys/signs is considered a **"RESTRICTED AREA"** and no vessels or floating craft shall enter restricted areas at any time. Violators may be cited and fined by state and federal officials.

3. Recreational boaters are cautioned that these buoys and signs are for their own protection. Boaters should always approach the locks, especially when proceeding downstream, with **extreme** care. Since the buoys may move off station during high flow conditions, boaters are urged to consult the Navigation Charts to be absolutely sure of their landmarks when approaching the locks and dams. Remember, all vessels are encouraged to carry Navigation Charts on board and post a proper lookout while underway on the rivers.

FOR THE DISTRICT ENGINEER:

/signed/

Richard C. Lockwood  
Chief, Operations Division
